Products Focus:

Tetra Vio : The ALL in ONE solution !

The **Tetra Vio** (Model: TVC401) is a new highly versatile A/V Switcher / Converter / Interface with 3 universal and 1 SD/HD-SDI inputs with Digital De/Embedded Audio.

It accepts a large range of formats, from computer to video and HDTV, in Analog or Digital format and provides a large range of connectors: BNC, HD15, DVI, Mini DIN4, Cinch and RCA. The output provides the same diversity of formats and the same type of signals and connectors.

The **Tetra Vio** is equipped with an Analog Genlock input with active loop through and offers a choice between SDTV Black Burst and Black HD-YUV.

The **Tetra Vio** is also a smooth and fast Audio/Video Switcher offering many useful possibilities such as 500% Zoom, user programmable EDID for DVI input, etc.... Its high performance and flexibility make it essential in complex installations and extremely useful in solving signal compatibility issues at the last minute.

>> **Success Stories :**

" Henry county Government (McDonough, Georgia, USA) chooses dB Audio & Video to upgrade their meeting rooms with the Octo Vue."

"(...) *What advantages do you recognize in Analog Way products?* "Analog Way has a high quality and features rich product line at a reasonable cost. The Octo Vue with its high resolution scaling and the ability to seamlessly switch the video and audio of each source allowed us to simplify the systems potential complexity while maintaining it's flexibility and quality. (...)"
